

PeopleHub Overview

The Tandem PeopleHub contains valuable payroll, benefits, and other HR information. This online system is available to you any time and anywhere you have internet access. The first time you visit the PeopleHub, you will need to register to create an account.

Visit TandemHR.com and click on the PeopleHub button on the top right. Then, click on the Employee Login button.

To register, click the Register link and enter your last name, social security number, and email address. Choose a unique username and password. After you log in for the first time, we encourage you to enter your mobile number under My Tandem > Contact Info which generally provides a faster way to receive your multi-factor authentication code.

After logging in, users will see a navigation menu on the left and a group of widgets with various messaging in the center. These widgets are subject to change but generally highlight important messaging, news, and commonly accessed system information. Messages and system preferences are accessible on the top right.

Employees who need support registering for or accessing the PeopleHub portal, should contact:
