

## Tandem Time

**Experience one of the most accurate and versatile web-based time and labor management applications on the market.**

Tandem Time collects attendance data and allows for powerful reporting and configurability, to fulfill virtually any business requirement. Features include employee and manager self service workflows, configurable business logic, mass edit capabilities, multi-level security, and rich data collection options.

### System Highlights

- Flexible Accruals Engine
- Time-off Request Workflow
- Customizable Reports
- Exception Tracking
- Workforce Management Dashboard
- Job Costing

### Feature Highlights

Configurable business rules allow for easy mapping of your business requirements without the need for custom software scripting or programming.

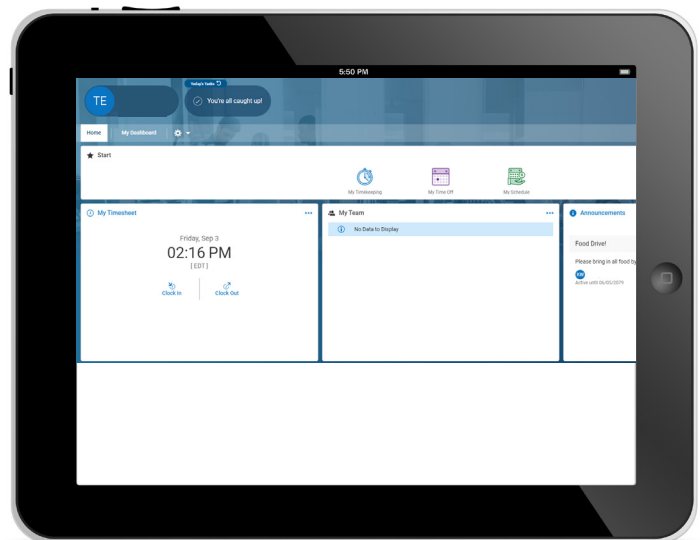

- Versatile Pay Rules Engine
- Flexible Accruals Management
- Dynamic Manager Security Levels

### Robust Reporting

Tandem Time provides numerous ways to view information, which allows employers, managers, and administrators to see exactly what type of data they need, how much they need, and when they need it.

- Use quick links to immediately navigate to your most important reports
- Create individual report settings
- Determine managers' access within reports with security profiles
- Choose from a wide range of export options including CSV, Excel, PDF, and XML

*Track time from your computer, tablet, mobile phone app, traditional or biometric time clocks*

# Tandem Time
