

Tandem Time Authentication App Set Up

How to set up the Google Authenticator app for Tandem Time.

- 1) Navigate to the App Store and search for "Google Authenticator."

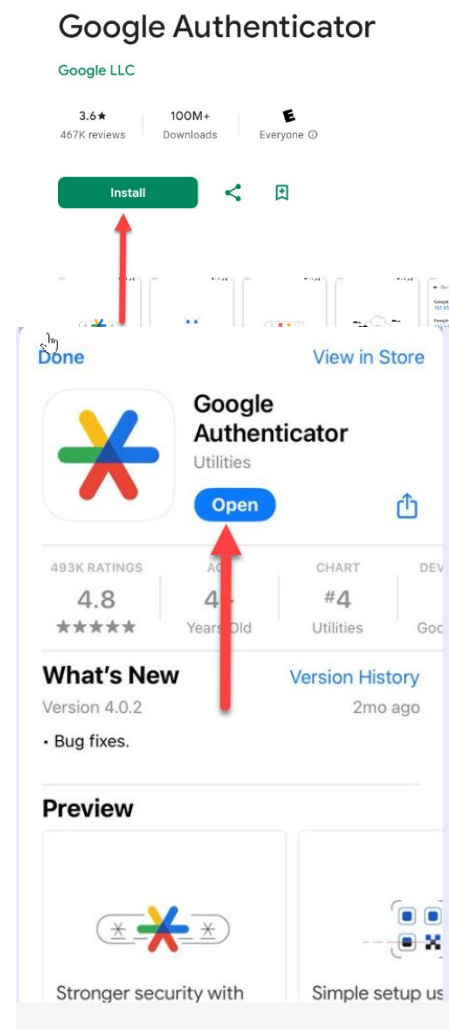

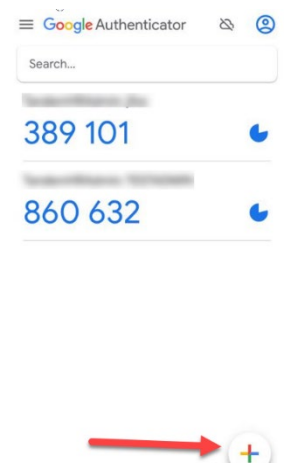

The authenticator app can also be downloaded from the Apple or Google Play store using the links below:

[Apple](#) | [Android](#)

- 2) Select "Install" next to the app. You may be prompted by the app store to verify your "purchase" even though the app is free.

- 3) Once the app installs, click "Open" from the app store or tap the app icon on your home screen.

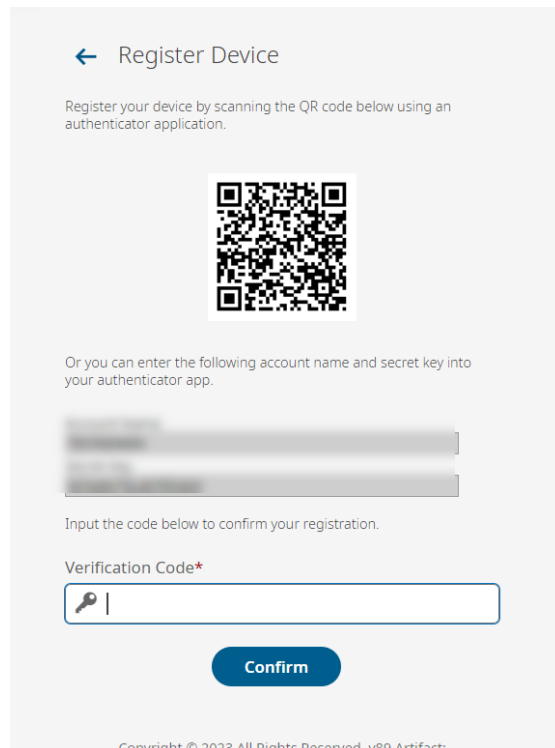

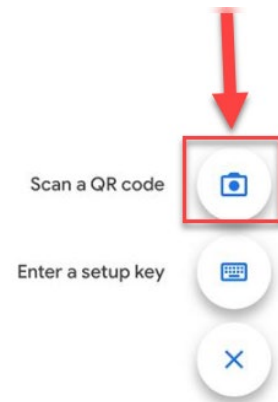

- 4) Tap the "+" symbol to begin set up.

5) On the next screen choose "Scan a QR code".

6) You will be prompted to allow the app to use the camera. Choose "OK."

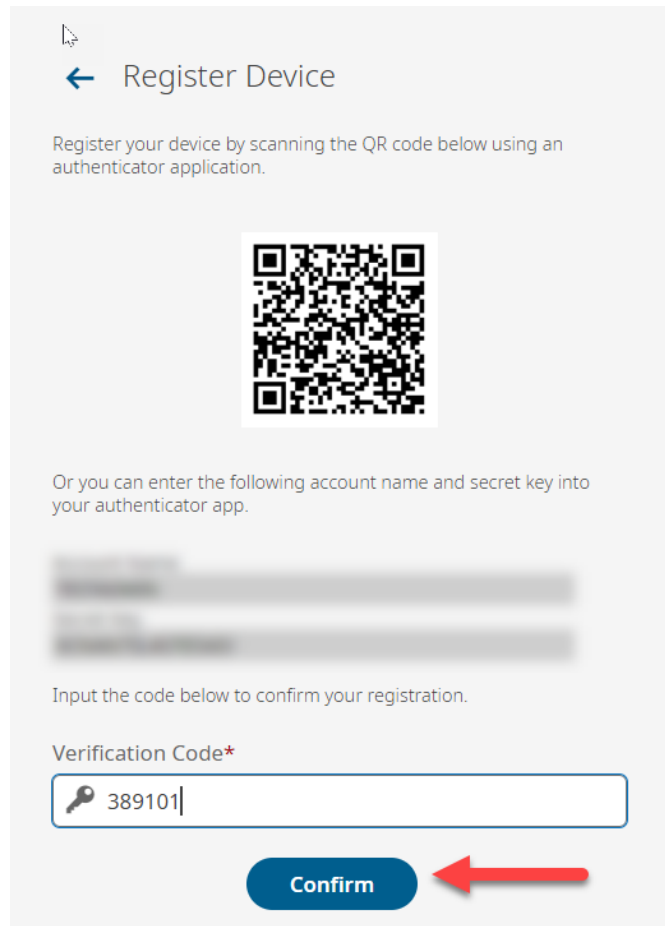

Now, log in to Tandem Time to scan the code. Once you enter your username and password, you will then see the QR code.

7) Now you should see the Google authenticator listed with a 6-digit verification code.

8) Enter the time sensitive code into the verification code field in Tandem Time and select "Confirm."

← Register Device

Register your device by scanning the QR code below using an authenticator application.

Or you can enter the following account name and secret key into your authenticator app.

Input the code below to confirm your registration.

Verification Code*

Confirm

Congratulations - you have successfully installed the Google authentication app for Tandem Time!
