

Tandem Time

Experience one of the most accurate and versatile web-based time and labor management applications on the market.

Tandem Time collects attendance data and allows for powerful reporting and configurability, to fulfill virtually any business requirement. Features include employee and manager self service workflows, configurable business logic, mass edit capabilities, multi-level security, and rich data collection options.

System Highlights

- Easy Scheduling
- Time-off Request & Leave Management
- Customizable Reports
- Mobile Geofencing
- Workforce Management Dashboard
- Expense Tracking

Robust Reporting

Tandem Time provides numerous ways to view information, which allows employers, managers, and administrators to see exactly what type of data they need, when they need it.

- Use quick links to immediately navigate to your most important reports
- Create individual report settings
- Determine managers' access within reports with security profiles
- Choose from a wide range of export options including CSV, Excel, PDF, and XML

Track time from your computer, tablet, mobile phone app, traditional or biometric time clocks

Powered By:

1 Online Timesheets

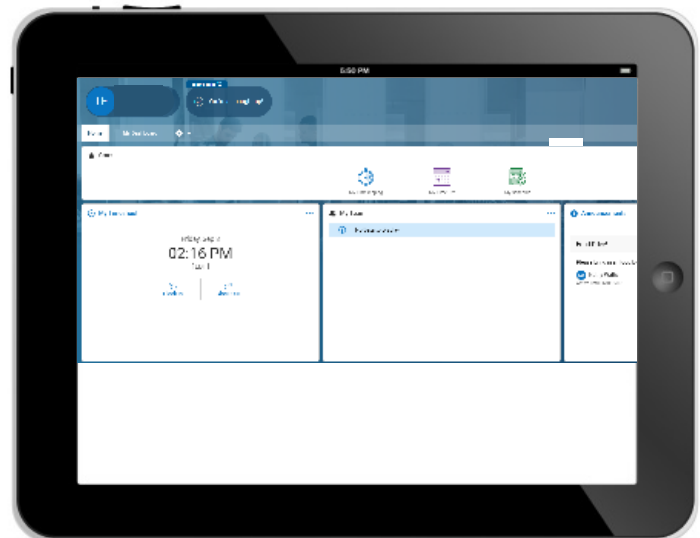

We track the punches. We even point out when punches are missed. No more call reminders.

2 Manage the Data

Approve submitted time sheets and requests for time off. Everything is organized in one place.

3 Export to Payroll

Export all the data to your payroll with the click of a button. Yep, it's that easy!

Tandem Time
